

7 April 1958

The Century Association
Committee on Admissions
7 West 43rd Street
New York 36, New York

Gentlemen:

I understand that James Grafton Rogers and Beth Webster have proposed and seconded Quigg Newton for non-resident membership in the Century.

I have personally known Quigg Newton for many years. He has had a varied and distinguished career; for several terms, Mayor of Denver, then with the Ford Foundation, and now President of the University of Colorado. He has wide interests in both domestic and foreign affairs; is an extremely talented and versatile gentleman, a delightful companion and a man who I am sure, would be welcome to all the members of the Century.

I take pleasure in endorsing his membership application.

Sincerely,

Allen W. Dulles
Director
